OYEWOLE SAMUEL OLUWASEYI

OBJECTIVE Data Analyst with over **3 years of experience** leveraging data to drive informed business decisions. Experienced in collecting, cleaning, analyzing, and visualizing data to uncover trends and deliver actionable insights. Proficient in SQL, Microsoft Excel, Power BI, and Tableau, with a strong ability to build interactive dashboards, develop KPI reports, and communicate findings effectively to stakeholders. Recognized for a detail oriented approach, strong problem solving skills, and the ability to translate complex data into practical recommendations that support business growth and operational improvement.

CERTIFICATIONS	DATA ANALYSIS CERTIFICATION M PRESENT NEW HORIZONS, ADO-EKITI	DEC 2024
-----------------------	---	----------

KEY HIGHLIGHTS **Relevant Data Analysis Experience: 35 months(2023-02 to 2024-08; 2025-01 to 2026-05) of** professional data analysis experience with

- **Olaniyi Block Industry & Cement** (2023-02 to 2024-08); and
- **Swiss Limited** (2025-01 to 2026-05).

Experienced in transforming raw data into actionable business insights, building interactive dashboards, tracking KPIs, and presenting analytical findings to management to support operational efficiency, revenue growth, and strategic planning. Began a self-directed journey into data analytics in **2022**, developing practical skills in SQL, Excel, Power BI, and Tableau through hands-on projects and continuous learning, and earning professional certifications that strengthened technical and analytical expertise in 2024.

WORK HISTORY

Data Analyst

Swiss Limited

Osogbo Osun State Jan 2025 – May 2026

- Developed interactive Power BI dashboards and KPI reports to monitor business performance, sales trends, and operational efficiency.
- Collected, cleaned, and validated sales and operational datasets to improve data accuracy and support reliable business reporting.
- Performed SQL-based data extraction, transformation, and validation to prepare datasets for analysis and reporting.
- Automated recurring reports using Microsoft Excel (PivotTables, Power Query, advanced formulas, and macros), reducing manual reporting effort and improving efficiency.
- Analyzed sales performance, customer trends, and operational metrics to identify opportunities for revenue growth and process optimization.
- Presented dashboard insights and analytical findings to management, supporting data-driven business and strategic decisions.
- Delivered actionable recommendations that helped improve operational performance, resource allocation, and overall business growth.

Junior Data Analyst

Olaniyi Block Industry & Cement

Ado-Ekiti, Ekiti State Feb 2023 – Aug 2024

- Collected, organized, and analyzed production, inventory, and sales data to support daily business operations and management decisions.
- Maintained Excel databases and dashboards for tracking key performance indicators (KPIs), production output, sales performance, and inventory levels.
- Created reports and visualizations to communicate business performance trends and support operational planning.
- Conducted data validation and trend analysis to improve data quality and identify opportunities for operational efficiency.
- Assisted management in monitoring sales and production performance, providing insights that supported business growth initiatives.
- Collaborated with operational teams to improve reporting processes and ensure accurate, timely delivery of business information.
- Supported data-driven decision-making by transforming raw business data into clear and actionable insights.

EDUCATION

BACHELOR OF AGRICULTURE (B.AGRIC.) IN FISHERIES AND AQUACULTURAL MANAGEMENT

Relevant Coursework: Biostatistics, Research Methods, Experimental Design, Data Analysis, Agricultural Economics, Population Dynamics, Quantitative Techniques, Environmental Monitoring, Database Management, and Operations Management.

SKILLS Excel • Power BI • Tableau • SQL • Data cleaning • Data visualization • KPI reporting • Business reporting • Data Analysis • Statistical Analysis

PROJECTS

Personal projects

<https://swiss111.github.io/Swissmain.github.io/>

- **RETAIL SALES SQL**

Analysis Conducted comprehensive sales data analysis using SQL to extract, clean, transform, and analyze large datasets.

Developed complex queries to identify sales trends, customer purchasing behavior, and product performance, enabling data-driven recommendations to improve business performance and operational efficiency.

- **RETAIL SUPPLY CHAIN & SALES ANALYSIS DASHBOARD (POWER BI)**

Developed an interactive Power BI dashboard to analyze retail sales performance, profitability, customer purchasing behavior, product category performance, and regional sales trends. The dashboard enabled stakeholders to monitor key business metrics, identify growth opportunities, and make data-driven decisions through dynamic visualizations and KPI tracking.

- **CHRISTMAS GIFT SALES ANALYSIS DASHBOARD (MICROSOFT EXCEL).**

Designed an interactive Excel dashboard to evaluate Christmas sales performance and customer buying patterns during the holiday season. Utilized PivotTables, charts, slicers, and advanced Excel functions to provide insights into revenue trends, top-performing products, and customer preferences, supporting strategic planning and inventory management
